Mc Clellan's House. April. 19<sup>th</sup>. 1853.

My dear Parents -

Here we are in Mt. Clemens - The Church in Monroe had given me, as they stated in unanimous Call to become the Pastor of their Ch - and accompanied the invitation, with the most abundant and pressing solicitation. In view of all consideration I could give the subject, it appeared to be my duty to move my family to Monroe, which I did, renting a house, and purchasing furniture. On the first Sabbath of last February I stated from the Pulpit, that it was my purpose / provided favoring / to attend the approaching Session of the Monroe Presbytery, and request them to take the regular steps for my Installation - When so and behold, immediately a Meeting was called for Monday Evening - to take into consideration the statement I had just made. The collision between friends and foes was very exciting - My friends were by far the Majority, but as the opposition was large and influential, it was felt to be a matter of painful necessity to yield - They finally concluded to direct the Session to ask for the return of the call placed in my hands - afterwards the Session requested me to occupy the Pulpit until Spring - I told them that in view of what had been done, it was impossible for me to preach for them any longer. The whole history of this business, private & public, I know very well, as do also all the people of Monroe - At some future day I may have the opportunity to explain it to you fully - We continued with them until last week - Our furniture (not very much either in quality or quantity) has been placed in Dr Landon's House - Mr Landon very kindly consenting to take charge of it, until we shall know where to

Send it - My wife and children will remain here with Dr Haels family  
until I shall be permitted to provide a home for them - They are all  
well, and as cheerful as peoplle in present circumstances.

What to do, of course fills me with anxiety - Most probably in a few  
days I will start for a trip into Southern Ohio & Indiana - partly for  
health and pleasure - and mainly with the hope and prayer, that a  
kind Providence may go before me and prepare some inviting field  
of usefulness for me -

Let you should have some unnecessary anxiety, I will simply add  
that the ground of objection stated, was my failing health - My health  
is failing - but not so much as it was, when I first came among them -  
but this was all pretense - The real cause was something apart from my  
qualifications - At malignant spite, partly against myself, but chiefly against  
some of the families, who were most prominent in my support - had to be  
gratified - and hence the retreat -

Can you not send me a letter - Surey I need one just now - When  
you write, which I hope will be immediately, you can direct to this place -  
Mt Clemens, Mi' Com Co, Michigan - My wife will receive it, and have it,  
or the contents forwarded to me - I would like also to have some lines from  
Sister Catherine and John -

My love to all - May our Heavenly Parent bless you and pro-  
tect you -

Affectionately your son  
T. Foster

P.S. You will preserve the enclosed letter carefully -

1876 JULY 1

Harrisburg Pa

July 1, 1876

I beg leave to say, to the surviving Execu-  
tors of the last will of Genl Geo Foster  
dec'd that it is indispensable, that  
they should raise a fund, to pay the  
Taxes, or the land will be sold at Treasur-  
ers sale, on the 7th day of next month.

The taxes of this year also should  
be paid promptly - if not for the pur-  
pose of obtaining a discount - to sus-  
tain the credit of the estate.

Miles Weller brought suit against  
the estate for paving, that suit will  
be reached next winter and in  
any event, the claim, must be paid -  
and by that time the taxes for next year  
will be wanted: and then, there <sup>is</sup> are  
other ancient bill outstanding - from

which, surprising as it may seem,  
it will require nearly three thousand dollars,  
~~(\$3000.00)~~ to carry the estate over  
the next eighteen months.

I would be too happy, to suggest  
a way, by which that sum, could be  
raised - other than, by sale or loan;  
but I know no other way.

I have not overlooked the fact, that  
a suit is pending against the city  
for damages; the time when any  
money can be realized, out of that  
action is so uncertain, that it will  
not be wise to take it into the account.

If a loan cannot be effected,  
although a sale in these panicky times  
may invite severe criticism, there  
appears to be no alternative; and but  
a brief time for action is allowed by the  
<sup>Circumstances</sup> Most respectfully your servant

My dear Husband

We arrived here safely about five o'clock this morning, after a most provoking delay in starting. The train that was due at Port Kent at seven-thirty-five in the evening was detained at Round Lake (below Saratoga) for five hours, so we did not leave the Lake View House until twelve & Port Kent until one o'clock. We have delightful rooms on the first floor, so we went to bed at once. After breakfast & seeing the Margins of Yorne start off with his guard to lay a corner stone, we took three carriages & drove to the mountain. The view from the top, which is the latest improvement which we gained by driving around & around was lovely, the Lachine rapids in the distance & the river for miles, the city spread out like a grand panorama

around us. To night there was a supper  
given to the Marquis, we saw him receiving  
some of the Officers had a number of  
decorations. We visited the Churches of Notre  
Dame & the Flait Church. It is now ten  
o'clock & I am tired out, had so little  
sleep. We expect to leave here Thursday  
night or Friday Morning for the Yakhoo.  
Hope you are all well. Much love  
Your affec wife Anna A Forslio.

The Office is crowded so will direct this  
with lead pencil

Levi wrote home immediately after our arrival to notify you that we were safe. To-day is mail day but as Mr Penrose is going to Coalville this morning I will send this by him, as it will reach you sooner. Saturday evening Heber & Willie Bull & Ock & Norman Penrose all arrived about nine o'clock and as Fanny Jacobs was already here we have a large party. Carmie seems to enjoy herself very much she tried milking the cows yesterday and runs round with

The children as good a girl as you would wish  
to see, I am in hopes she will be strengthened  
and improved. We have had cool weather  
but not much rain. To night we expect Mrs  
Clingan Mrs Metherill and Aunt Sallie Bull  
over from Hapscell. Levi intends going home  
tomorrow so he can tell you all the news.

Tell Douglas I wish he was here as I know  
he would enjoy it. Em wants you to come  
down cant you? Dont forget to tell Annie  
that if there is any danger of currants being  
over she shall preserve some, but if plenty  
I will do them when I get home. I hope Ma is  
better and that our packages have arrived.  
With much love to all and kisses to Doug

My Dear Husband

I received your

letter on Saturday afternoon, too  
late for Father who had left  
in the morning, but the beam  
will be just as useful for the  
rest of us. How does Carrie  
bear this warm weather? we  
have very warm weather  
with violent thunder-storms  
just as I began this letter there  
was a most violent-plot of thunder  
we think it struck very near  
here. Tell Father the men  
have not got all the wheat  
in yet though Isaac had  
sixteen hands yesterday they  
expected to finish to day if  
this rain does not last long.

Van Bull came over to see us on Sunday, brought an invitation from his Mother for Father and me to come to Westchester, Em thinks she will accompany me on tomorrow week (Wednesday) to stay a few days and come home from there. If you have made any arrangements or Mother is tired of her charge let me know and we will come directly home next Wednesday. Doug seems to be very contented but rather objects to so few vehicles or bands passing, he seems to think it a personal insult, he took a ride over to the store yesterday Doug, drove most of the way home he is very proud of it. I hope Minnie is better and that she will not have a serious sickness. Tell her Laura Haven

expects to go to North Conway  
this month I dont know whether  
she will stay until August  
or not. I suppose you are  
enjoying your widowhood  
very much so you will look  
forward to its being lengthened  
with composure. Em says she  
would be very glad to see  
Cousin Aley is he is well  
enough maybe you and he  
can come down, it would be  
so pleasant. I hope you have  
locked my Bureau drawers &  
Keep the Keys. Give very much  
love to all Miss Cami and tell  
her to be a good girl and obey  
Grand-ma With love believe  
me to be your affec wife
